- (6) Any other acreage for which, for whatever reason, there is cause to question whether the crop could have been planted for a successful and timely harvest, or for which prevented planting credit is not allowed under the provisions of this part.
- (e) Prevented planting payments are not provided on acreage that had either a previous or subsequent crop planted in the same crop year on the acreage, unless the county committee determines that all of the following conditions are met:
- (1) There is an established practice of planting two or more crops for harvest on the same acreage in the same crop year;
- (2) Both crops could have reached maturity if each planting was harvested or would have been harvested;
- (3) Both the initial and subsequent planted crops were planted or prevented planting within the normal planting period for that crop;
- (4) Both the initial and subsequent planted crops meet all other eligibility provisions of this part including good farming practices; and
- (5) The specific crops meet the eligibility criteria for a separate crop designation as a repeat or approved multiple cropping practice set out in §760.814.
- (f)(1) Disaster benefits under this part do not apply to crops where the prevented planted acreage was affected by a disaster that was caused by drought unless on the final planting date or the late planting period for non-irrigated acreage, the area that was prevented from being planted had insufficient soil moisture for germination of seed and progress toward crop maturity because of a prolonged period of dry weather;
- (2) Verifiable information collected by sources whose business or purpose is to record weather conditions, including, but not limited to, local weather reporting stations of the U.S. National Weather Service.
- (g) Prevented planting benefits under this part apply to irrigated crops where adequate irrigation facilities were in place before the eligible disaster and the acreage was prevented from being planted due to a lack of water resulting from drought conditions or contamina-

- tion by saltwater intrusion of an irrigation supply resulting from drought conditions.
- (h) For NAP covered crops, prevented planting provisions apply according to part 718 of this chapter.
- (i) Late-filed crop acreage reports for prevented planted acreage in previous years are not acceptable for CDP purposes.

## $\S 760.816$ Value loss crops.

- (a) Notwithstanding any other provisions of this part, this section applies to value loss crops and tropical crops. Unless otherwise specified, all the eligibility provisions of part 1437 of this title apply to value loss crops and tropical crops under this part.
- (b) For value loss crops, benefits under this part are calculated based on the loss of value at the time of the damaging weather or related condition, as determined by FSA.
  - (c) For tropical crops:
- (1) CDP benefits for 2005 are calculated according to general provisions of part 1437, but not subpart F, of this title.
- (2) CDP benefits for 2006 and 2007 are calculated according to part 1437, subpart F of this title.

## § 760.817 Quality losses for 2005, 2006, and 2007 crops.

- (a) Subject to other provisions of this part, assistance will be made available to participants determined eligible under this section for crop quality losses of 25 percent or greater of the value that all affected production of the crop would have had if the crop had not suffered a quality loss.
- (b) The amount of payment for a quality loss will be equal to 65 percent of the quantity of the crop affected by the quality loss, not to exceed expected production based on harvested acres, multiplied by 42 percent of the per unit average market value based on percentage of quality loss for the crop as determined by the Deputy Administrator.
- (c) This section applies to all crops eligible for 2005, 2006, and 2007 crop disaster assistance under this part, with the exceptions of value loss crops, honey, and maple sap, and applies to
